

PDFBuilder/2 Licence Agreement for version 1.00.00

I am not very good at these so here goes.

Your part of the agreement:

I take no responsibility for anything even if I said it. This program promises to do nothing except take up space on your harddrive.

My part:

With that in mind, remember I take feedback very seriously and will try to respond to all feedback. I will also make reasonable attempts at fixing and adjusting according to your requests.

If I feel i can no longer maintain my part of the agreement then i will release this program and the source code to the public.
